## Executive Summary

Distribution Services provides county agencies pickup and delivery of mail and supplies, processing and metering of U.S.
Mail, U.S. Mail training and consultation, and management of mail services contracts.

## Program Description

Distribution Services provides regular pickup and delivery of interoffice mail, US mail, Central Stores products, County records, and Health Clinic lab samples to 260 stops throughout the county. It also provides on-demand special delivery of larger shipments. Distribution Services meters over 1.1 million pieces of US Mail per year at full and discounted rates; provides training and consultation to county agencies on lowering postage costs; and maintains mail services contracts for presort and mail processing services, including folding/insertion, addressing, and metering.

## Program Justification

Distribution Services supports Accountability's primary factor of Resource Management through the strategy of "manage resources and service delivery costs effectively".
By centralizing inter-office mail distribution and supply delivery, Distribution helps County programs have what they need, when they need it, and where they need it to conduct business. Morning pickups are delivered the same day to most of the 260 mail stops.
By partnering with the State and Portland delivery systems, interoffice mail is also sent and received from many other Willamette Valley governments producing "more bang for the local buck";
By managing a multi-jurisdictional contract for presort services; presorted mail postage costs for all participating governments are reduced ( $16 \%$ for County). Maintenance of centralized mail service contracts also generates savings and reduces departmental efforts across vote-by-mail, tax mailings, and other specialized projects.
Metering US Mail centrally ( $1,111,244$ pieces in FY05) ensures that all US mail is to the Post Office by the end of the business day. It also allows the County to reduce costs by maintaining fewer postage meters.
By coordinating both Distribution's and Materiel Management's staff, expertise, equipment, and processes increased efficiencies are gained.

## Performance Measures

| Measure Type | Primary Measure | Previous <br> Year Actual <br> (FY04-05) | Current Year Purchased (FY05-06) | Current <br> Year Estimate (FY05-06) | Next Year Offer <br> (FY06-07) |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Output | \# of pieces of mail processed | 1,111,244 | 1,096,849 | 1,110,000 | 1,120,226 |
