**Performance Measure - Description**

Number of Field Service calls is a measure of service demand. Average emergency response time in minutes, Percent of animal bite and cruelty investigations initiated within 72 hrs and Percent of neighborhood nuisance complaints with reponse time less than 10 days are all measures of our responsiveness to the public. The goal for these measures are 15 minutes, 90% and 90%, respectively, however, due to staffing levels, these goals are currently not realistic. Listed goals are improvements to FY06 performance.

Calls for Field Service are coded in three priorities: Priority 1 - Emergency response; Priority 2 - Urgent response: one hour; Priority 3 - Standard response: time available. In FY05, Field Services responded on 13,512 calls for service: 3,201 emergency calls; 1,002 bite investigations; 1,982 animal cruelty/welfare investigations; 2,056 dead animal service calls; 4,925 neighborhood nuisance complaints. Calls for service in FY05 increased 5% over FY04.
