Program Description

This offer funds two dorms at Inverness Jail. These dorms are for 114 general housing inmates.

Program Justification

The Inverness Jail is established in accordance with applicable state statues and regulations, with the goal of ensuring public safety by providing professionally managed detention services to confined offenders, pursuant to judgment of the courts. The jail administers its operation in an equitable manner, and in the least restrictive environment consistent with public safety. The facility serves as the central link for regional networking through the inmate transport system.

The Corrections Health program's mission is to ensure that inmates are not medically harmed during their jail stays, are medically and mentally stabilized, and are treated humanely. Suicide prevention is a primary goal.

Performance Measure - Description

 **Measure Changed**

**Bed days is calculated by number of total beds in facility (114) multiplied by number of days in a year(365).

**The number of inmate to inmate assaults is 23. The number of inmate to staff assaults is 3.

The numbers expressed for the outcome primary measure (inmate and staff assaults) are based on a facility level not a dormitory level.

The output primary measure, Number of inmate requests for care evaluated by nurse monthly, is a new measure. This is because of the joint offer between MCSO and Corrections Health.

The outcome primary measure, Number of inmates seen in clinic for medical, mental health and dental problems, is a new measure. This is because of the joint offer between MCSO and Corrections Health.

Legal/Contractual Obligation

In accordance with state statute the Sheriff is required to maintain local detention facility(s). Oregon statutes mandate the operations of safe and humane detention facilities, which require sufficient staff to perform functions involving security, control, custody and supervision of all confined. Mandates include provisions for legal confinement, clothing, bedding, nutritional food, medical services, legal access, sanitation, life safety compliance, offender responsibility of conduct, exercise of religion, educational and work programs.

The right to health care in jail is legally mandated under Federal and State law. When an individual is arrested and incarcerated, the obligation for health care falls upon the government as a matter of constitutional law, enforceable under the U.S. Constitution's 8th Amendment and the 14th Amendment's due process clause.
