Executive Summary

FREDS Division Management leads, coordinates, and administratively supports the delivery of the division's operational support services, (Fleet, Records, Electronics, Distribution, and Materiel Management) to County programs and other government agencies. FREDS services impact the delivery and cost of nearly every service provided to the public, impact the productivity of early every employee, support emergency services making the difference between life and death, and support the maintenance of infrastructure which helps support local economy and quality of life."

Program Description

FREDS Division Management administers the division's programs and provides personnel management, budget preparation and control, capital purchasing, billing services, policy development, customer relations, problem resolution, quality control, financial management, internal controls, and other administrative functions. The program provides detailed billings and service usage information to departments to help them effectively manage their demand for FREDS' services and overall County costs.

Program Justification

FREDS Division Management supports Accountability's primary factor of Resource Management through the strategy of "Manage resources and service delivery costs effectively".

- FREDS Division Management leads and supports the division's operational sections in working with County programs so they have the right tools to deliver quality service to clients. This is accomplished by: managing the size of the fleet and motor pools to meet our customers delivery needs; effectively utilizing central stores services to reduce departmental transactional efforts; and working with departments to better understand how best to utilize FREDS' support services to meet their needs. It supports streamlined service delivery by providing the Division's operational programs with the appropriate amount of administrative, fiscal, managerial, and supervisory support. This support allows FREDS' operational sections to focus on meeting their customers' direct service needs with staffing levels that are as low as practical.
- FREDS Administration continuously works with the sections in sharing staff, shifting workloads, and changing processes to generate improvements that produce results greater than the capabilities of the individual sections. FREDS' sections share assets and skills by providing services to over 60 non-County agencies. FREDS Division Management helps the sections generate \$1,002,626 (FY07 Actual) in outside revenue which lowers overall service delivery costs and provides the community with quality service, cost effectively.
- FREDS has continually worked to effectively communicate within and across the county via electronic communication tools; standardized service and charge descriptions, service level agreements, performance measures, administrative procedures, mail pickup/delivery schedules, Records retention schedules, and the Central Stores catalog are published on the MINT; billing information is e-mailed to customers; and electronic surveys are being implemented.
