Executive Summary

This program offer accounts for Business Income Tax (BIT) collected on behalf of and passed through to the east county cities of Gresham, Troutdale, Fairview, and Wood Village. These payments are prescribed in an intergovernmental agreement (IGA) that shares revenue from the BIT. Under the terms of this agreement, the four cities share 25% of the first 0.6% of BIT collections.

It also includes the County's obligation to share Community Service Fee revenues generated through the Strategic Investment Program (SIP) with the City of Gresham.

Program Description

The BIT is imposed on the net income derived from business activity within Multnomah County. The BIT was originally set at a rate of 0.6% of net income. In 1985, the tax was increased to 0.95%. In 1987, the tax was further increased to 1.46%. In 1993 the rate was reduced to 1.45% due to the consolidation of collections with the City of Portland's Business License Fee (BLF). The County entered into a tax sharing agreement with the four east county cities, in part to acknowledge the value of business income derived from those cities.

The County entered into an SIP agreement with Microchip Technologies, Inc. in FY 2004. Under terms of that agreement, the company agrees to pay 25% of Property Tax abated in the form of a Community Service Fee. State statutes direct that the County share that revenue with the City in which the company receiving the SIP exemption is located.

Program Justification

This program supports the County's accountability priority. The County acts as a fiduciary agent for the four east county cities. It is important that payments are processed and remitted in a timely manner.
