Program Characteristics:

Executive Summary

This program offer accounts for the transfer of the remaining revenue from the temporary local income tax (ITAX) to Multnomah County school districts. Nine school districts share approximately 70% of the revenue generated by the ITAX.

The ITAX expired on December 31, 2005. This offer accounts for prior-year taxes anticipated to be collected during FY 2010.

Program Description

The ITAX was created when voters approved Ballot Measure 26-48 in May, 2003. It was a three-year measure that raised local funds to prevent further cuts to Multnomah County's public schools and to programs that help the County's most vulnerable residents. It was a temporary, local answer to state budget cuts and economic conditions. The bulk of the revenue, approximately \$90 million per year, was divided equally on a per-pupil basis to all county public school districts. This offer allocates the remaining ITAX revenue on the same per-pupil basis.

Program Justification

This program offer supports the County's priority of school success by providing direct cash assistance to schools. The ITAX was proposed following the defeat of Measure 28. That statewide measure referred a temporary, 0.5% tax increase that was enacted by the Legislature. Following the defeat of Measure 28, schools in Multnomah County faced the prospect of cutting several weeks from the academic year or reducing the number of direct instructional positions. The ITAX provided about 13% of the total funding for all school districts within the County over the three-year period of the tax. The ITAX funding for schools had a number of goals, including the provision of a full school year, funding programs designed to achieve improvements in academic success for all students, and funding student support programs that provide a quality school experience and retain students in school.

Performance Measure - Description

For the duration of the tax, ITAX funding per pupil ranged from 11%-13% of total per-pupil spending across the school districts in Multnomah County. Now that the tax has ended, remaining collections constitute less than one percent of average per-pupil spending in Multnomah County schools.

A primary goal of the ITAX was to promote full school years in County Schools. All districts reported maintaining full instructional years during the period of the ITAX. This measure will no longer be reported as the ITAX has ended.

Measure 26-48 contained a provision that required school districts to report to a School Efficiency and Advisory Council (SEAC) on their plans for improving student achievement. The SEAC has released several reports that detail how schools used the ITAX revenue. Those reports can be found on the web at: <http://www.seacinfo.org/>

Legal/Contractual Obligation

Measure 26-48 obligates the County to pass through 70% of ITAX collections to the public schools.
