Executive Summary

Youth Gang Prevention (YGP) supports community-based, culturally, and gender-specific prevention services to young people and their families at highest risk of gang membership, or who are already involved with gangs but have not yet entered the juvenile justice system. Services are subject to the provisions of a Strategic Plan for a Comprehensive and Coordinated Response to Youth and Gang Violence, by Multnomah County's Local Public Safety Coordinating Council (LPSCC).

Approximately 600 young people and their families will be served. It is expected that 90% of youth served increase their academic achievement, and avoid or reduce subsequent juvenile justice system involvement.

Program Description

Youth Gang Prevention (YGP) will serve approximately 600 African-American, Asian, Native American, Latino, female youth, and their families annually. Young people served will have one or more of the following risk factors: gang and criminally involved family and friends; early onset of delinquent behaviors; Alcohol, Tobacco, & Other Drugs (ATOD) use; mental illness; academic failure; and lack of social and economic opportunities.

In response to the LPSCC systems redesign, a procurement process was conducted to select community-based providers able to deliver a specific intensive family support and intervention program model. The identified program model is a proven best practice successful in intervening with these young people and families.

By utilizing a specific, proven best practice model that provides intensive family-focused support and intervention, services are culturally and gender specific, as well as tailored to individual client needs. Services will include: ATOD and mental health assessment and referral to treatment; school retrieval and retention; pro-social skill building activities; employment readiness and placement; basic needs; case management; linkage to support services; and, flexible client service funds. Monthly system/joint case staffing meetings ensure seamless referrals between the juvenile justice system and community-based providers.

Intensive family support and intervention has been proven effective in successfully reducing or eliminating gang related behaviors. OSU research indicates that 20% of youth offenders commit 80% of juvenile offenses, and that most of this 20% are "early bloomers" who committed crimes before the age of 15. YGP prioritizes this specific population in relationship to gang involvement, youth violence and juvenile delinquency.
