Executive Summary

This program offer is for the operation of 166 beds at MCIJ. This is the first offer of 11 scalable levels (design capacity for MCIJ is 1037 beds). The MCIJ dorms are used to appropriately place inmates in the corrections system to ensure a safe, efficient operation of our jail network. Open dorm housing is structured to fit the needs of inmates who do not require special conditions for confinement, while maintaining safe and appropriate separations. MCIJ housing is based on a sound objective classification system.

Offer A is the base offer and includes 166 beds. MCIJ is a medium security, direct supervision corrections facility. Operation ensures the proper custody, control and supervision of detained pretrial inmates and sentenced offenders. Inverness supports program activities for pretrial inmates and sentenced offenders needing counseling, education, and mental health services to facilitate offender's successful transition back to the community and creates work opportunities for sentenced offenders.

Medical, mental health and dental services are provided to male and female general housing. This offer includes a 10 bed infirmary for acute medical care. Medical response to emergencies is provided on a 24/7 basis.

Program Description

The Inverness Jail is a direct supervision, dormitory facility founded on the principles of re-engineering the responsibilities and behavior of inmates. The design and population of Inverness Jail are suited to the greatest opportunities for inmate programs, education and work opportunities.

Offer A opens 166 beds, with 156 general housing beds and 10 medical beds. Operations, Administration, Support and Jail Services, such as clinic, kitchen, and transport, are included in Offer A. Corrections deputies from MCIJ also supervise pretrial inmates and sentenced offenders under medical care at hospitals.

The Inverness Jail is operated in accordance with applicable state statutes and regulations, with the goal of ensuring public safety by providing professionally managed detention services to pretrial inmates and sentenced offenders. The facility also serves as the central link for regional networking through the inmate transport system.

The Corrections Health program's mission is to ensure that inmates are not medically harmed during their jail stays, are medically and mentally stabilized, and are treated humanely. Suicide prevention is a primary goal.
