Executive Summary

The citizens of Oregon have designated certain activities to be regulated to facilitate a safe and livable community. Through an alarm permitting program, burglar alarms are regulated to ensure validity of the alarm and reliability of alarm equipment.

Program Description

The False Alarm Reduction Program regulates burglary and robbery alarms in unincorporated Multnomah County, and through collaborative contracts with east Multnomah County cities. Alarm regulation increases the probability that police respond to a valid alarm, saving scarce Public Safety resources. False alarm penalties promote good equipment maintenance technology. Protecting property through criminal apprehension is an important tool to feeling safe at home, work, school, and play. False alarm response is a non-productive use of police time and resources. Properly functioning alarms promote safety through quick police response and increased probability of holding offenders accountable. Citizens using alarms partner with police to promote safety in their community, resulting in a feeling of safety for citizens in their homes and businesses.
