### Executive Summary

This program offer supports the Multnomah county 2009 Climate Action Plan (CAP) which serves as the 40-year roadmap for the institutional and individual change needed to climate change resilient community. Because many climate adaption planning activities are closely related to other hazard mitigation activities, Multnomah County Emergency Management has a critical role in coordinating climate adaption planning across county departments. This program offer will create a position in Multnomah County Emergency Management Office that will be the main point of contact for county climate adaption planning and will coordinate climate adaption planning across departments.

### Program Description

This Program Offer is designed to implement actionable items in the Climate Action Plan by focusing on initiatives that intersect between traditional emergency management activities (hazard mitigation) and climate change preparedness (climate adaption planning.) This is a scaled offer requesting 1.0 FTE of a Program Development Specialist to accomplish these efforts.

Specifically the resource requested in this offer will:

- 1) Lead MCEM efforts to meet its obligations under Action #17-1 and #17-5 dealing with climate adaption planning
- 2) Lead a countywide climate vulnerability assessment in conjunction with operating departments. Work with other emergency management agencies regionally to coordinate climate change adaption efforts.
- 3) Work with county departments to identify and implement climate adaption planning activities within those departments.
- 4) Provide a single point of contact for internal and external stakeholders who want information about climate adaption planning and county efforts to accomplish such planning.

A 1.0 Program Development Specialist FTE will be required to support the four actions identified above. Only actions 1 and 2 can be accomplished with .5 FTE of a Program Development Specialist.
