Executive Summary

The Community Health Council (CHC) is a mandated community-based planning body that facilitates community involvement in quality assurance, public policy advocacy, and management accountability for the Health Department. CHC provides oversight of community health center services which include primary care, dental, early childhood services, nursing, school-based health, lab, pharmacy and radiology. The Council is comprised of a minimum 51% consumer – majority membership to ensure that health center users have a voice in the decision making process.

The 13 Coalition of Community Health Clinics (CCHC) are community based clinics that have a pivotal role in serving individuals who are under or uninsured in Multnomah County. The Health Department's indemnification program screens volunteer health care professionals for CCHC.

Program Description

The CHC offers an entry point for residents to give input about how the County can better meet the health needs of the community. The CHC has a critical role in assuring access to health care for our most vulnerable residents; it serves as the governing board required by the Federal Bureau of Primary Health Care to provide oversight of policies and programs within the scope of the Primary Care Grant. The 13 member Coalition of Community Health Clinics (CCHC) are community-based clinics uniquely able to respond to changing demographics and offer culturally appropriate care while fulfilling their mission of improving and providing health care to the county's most vulnerable populations. The Coalition clinics provide free or low-cost health care to uninsured people. The Council plays a critical role in assuring access to health care for our most vulnerable residents and by serving as the governing board required by the Federal Bureau of Primary Health Care to provide oversight of policies and programs within the scope of the Primary Care Grant. At minimum, 51% of Council Members are county residents who use the Health Department's clinical services. Participation on the Council allows them to better understand and influence how the County system works. Through effective partnerships, the County has leveraged millions of dollars of local, state, and federal revenue, increasing access to services for vulnerable populations through funding of the Community Health Council. County funding of the Coalition of Community Health Clinics' infrastructure fuels the engine that leverages community health resources: \$325,000 estimated in 2009. The Health Department's indemnification program for volunteer health care professionals leveraged an estimated 15,675 total volunteer hours with an estimated dollar value of \$560,000 in 2009–2010. The County's support of the coalition infrastructure and the Health Department's indemnification program assures access to critical health care for many who would otherwise be without care.
