Executive Summary

Corrections Health Multnomah County Inverness Jail houses 860 men, women, inmate workers for inside/outside work crews, sentenced individuals and those awaiting trial who are being medically stabilized with treatment. Approximately 160-170 USM detainees are housed in the system daily. MCIJ health personnel care for all those detainees transferred from MCDC for stable housing until disposition of their legal process is complete. Sentenced and unsentenced detainees have a plan of care in place to maintain treatment of their health conditions in order to prevent emergencies, pain and suffering which is the constitutional measure of quality care. Trained, skilled professional staff working 24/7 provide effective screening, illness identification, evaluation and effective, targeted treatment through a system of policies and procedures that reflect the standard of care in the community and equal to other correctional facilities across the country. Over 38,000 individuals are cared for each year with over 60% having health conditions, such as diabetes, kidney failure, infections, alcohol and drug withdrawal and mental illnesses.

Program Description

Corrections Health provides a variety of health, mental health and dental services to 430 men and women in dorms 11-18 at MCIJ. Diverse staff work 24/7 to provide evaluation, treatment, referral, medication management, emergency response, communicable disease identification and suicide prevention. A 10 bed medical infirmary provides skilled nursing and protective isolation in house and not at higher cost hospitals. Chronic disease monitoring is key to prevent hospitalizations for our clients with diabetes, hypertension, seizures, heart disease and infections. Special OB/GYN and orthopedic clinics support in house care. In partnership with custody staff, health responds to emergencies and screens for communicable disease to keep everyone safe. This health care is delivered effectively through providing the right care in the right setting.

Legal/Contractual Obligation

From the US Supreme Court to the Oregon State Revised Statutes, necessary health care for incarcerated individuals is a right because they have lost their freedom to obtain care on their own. Access to care, an evaluation by a health professional and a right to receive care that is ordered is mandated by the 4th, 8th and 14th amendments. When serious health needs are not addressed by professionals, deliberate indifference to medical needs bring harm to individuals entrusted to our care. Corrections Health is bound by ethical standards to provide unbiased care to all individuals.

Explanation of Revenues

As a result of the laws that govern the responsibilities of governmental agencies in the care of detained individuals, Corrections Health is unable to bill for services from 3rd party payers, insurance companies, Medicare, etc. These rules and laws are under review both locally and nationally to determine if additional revenue sources can be made available to jails. A co-pay system is in place that charges the inmate accounts for a nominal fee for evaluations, clinic visits and medications. Many treatments, screenings, diagnostics tests and communicable diseases are at no charge to the individuals in order to provide safety.

Corrections Health MCIJ Dorms 11-17 Including Infirmary is funded by \$1,148,578 in county general fund. The program estimates to collect \$11,352 in medical fees that are included in the county general fund.
