Program Characteristics: In Target

Executive Summary

Outpatient treatment is an essential part of the alcohol and drug treatment continuum that impacts public safety. At any time, 170 offenders attend these community-based, outpatient treatment programs 1 to 3 times a week. All participants are classified as high-risk and would likely commit a new crime without intervention.

Program Description

Services are provided through contracts with 9 non-profit providers that are dually licensed to provide drug and alcohol treatment and mental health services.

Outpatient treatment is an option for qualified offenders. Programs are equipped to respond to culturally-specific needs, provide comprehensive mental health counseling, assist with job related issues and support housing transitions. All contracted treatment programs use research-based approaches that motivate offenders to learn new skills that support a lifestyle free of crime and addiction.

Without treatment, offenders are more likely to reoffend and/or end up occupying expensive jail beds. A study published by the Oregon Legislature Public Safety Strategies Task Force (2008) found that drug treatment programs in the community have been shown to reduce criminal re-offense rates by 9%.

Performance Measures

| Measure Type | Primary Measure | Previous Year Actual (FY09-10) | Current Year Purchased (FY10-11) | Current Year Estimate (FY10-11) | Next Year Offer (FY11-12) |
|--------------|--|--------------------------------|----------------------------------|---------------------------------|---------------------------|
| Output | Number of offenders served | 512 | 0 | 600 | 600 |
| Outcome | Percent of high-risk offenders who do not recidivate one year post-treatment exit. | 87.0% | 87.0% | 75.0% | 87.0% |

Performance Measure - Description

✓ **Measure Changed**

Output is new.

Recidivism is a measure of new felony arrests one year post treatment using a recidivism rate.
