Executive Summary

Multnomah County's Mental Health and Addiction Services Division (MHASD) Administration manages a recovery-focused, comprehensive system of care to prevent, intervene in, and treat mental illness and addiction in children and adults. Through culturally responsive and evidence-based practices MHASD serves low-income, uninsured, and homeless people, as well as anyone who is in crisis. MHASD provides a continuum of services directly and through a provider network. In total, these programs serve more than 30,000 children, families and adults annually.

Program Description

The Board of County Commissioners is the Local Mental Health Authority. Through that authority, MHASD Administration provides oversight and management of all behavioral health programs in the system of care, whether provided directly or through contracted agencies.

MHASD is organized into three units:

- 1) Verity, the county's Mental Health Organization (MHO), a federally funded insurance program for children, youth and adults enrolled in Oregon Health Plan.
- 2) The Community Mental Health Program (CMHP) provides services that include involuntary commitment, crisis services, and addiction treatment.
- 3) Direct Clinical Services (DCS) encompassing all programs for children, youth, and adults where services are delivered by MHASD staff. These services may be reimbursed by Verity, by the State, or by another funding source.

MHASD administration continuously assesses its continuum of services to respond to the changing needs and demographics of Multnomah County. All changes are shaped by the input of consumers, advocates, providers and stakeholders. MHASD does this through frequent provider, adult system and child system advisory meetings, focus groups and ad hoc meetings.

MHASD administration is also responsible for ensuring contracted providers deliver evidence-based and culturally responsive services to consumers. We monitor our contracts with providers for fiscal, regulatory, and clinical compliance.

To ensure good stewardship, MHASD business and clinical decisions ensure that finite resources are targeted to serve the most vulnerable populations. MHASD management participates in planning at the state level to influence the policy decisions that affect the community we serve. We value our community partners, with whom we work collaboratively to create a system of care responsive to the needs of our community.
