Executive Summary

Residential drug treatment is an essential part of the alcohol and drug treatment continuum that impacts public safety. This offer provides 90 beds of residential drug and alcohol treatment for high risk male offenders and allows courts and Parole/Probation Officers (PPO) an alternative sanction to jail. Past evaluations have shown that these county services effectively reduce re-arrest rates. Eighty-nine percent of offenders who successfully complete treatment do not re-offend one year after exiting treatment (Hamblin and Rhyne 2011).

Program Description

Fifty-two beds serve high risk offenders in a facility specialized in treating males involved with the criminal justice system. The remaining beds are located in three residential facilities within the community. Some of these beds are reserved for specific populations (e.g., sex offenders, East County property offenders). While the length of treatment varies for each individual, the average length of stay for successful completion in residential treatment is 168 days, but may last up to six months. When appropriate, offenders are transported directly from jail to residential treatment, ensuring a drug-free transition.
