Executive Summary

The Court Appearance Notification System (CANS) is a collaborative, multi-jurisdictional program designed to reduce offenders' rate of failure to appear (FTA) in court. Reducing FTAs is accomplished through the use of automated telephone reminders for appointments. The automated system also alerts offenders of payments due on restitution and supervision fees. As a result of the thousands of notifications made by CANS for the first half of FY 2012, there was a 92% average appearance rate in court for offenders who were successfully notified by CANS. CANS regularly monitors and reports program performance to the Local Public Safety Coordinating Council (LPSCC) and the Criminal Justice Advisory Committee (CJAC).

Program Description

CANS works by reminding defendants of: a) upcoming court hearing dates, times and locations; and b) any outstanding restitution, compensatory and/or supervision fees. CANS is a collaborative effort of the State Courts and multiple county public safety agencies. The Department of Community Justice (DCJ) provides management of the project (half time program coordinator) and a vendor contract. The District Attorney's Office provides police training, the State Courts provide information technology support, and both LPSCC and the County Budget Office provide technical assistance.

FTAs incur substantial costs to the various enforcement agencies for re-arrest, re-booking, additional jailing, additional prosecution, increased matrix releases and increased backlog of warrant entries. This program demonstrates effective agency collaboration, fiscal responsibility and efficient use of the criminal justice system.
