The clinic serves seasonal migrant workers, pregnant women, infants, children that reside in East Multnomah County who, even if insured, would remain isolated from comprehensive healthcare services because of where they live, the language they speak and their higher level of complex healthcare needs.

Program Description

East County Health Center primary care services are designed to be a patient centered medical home. This includes reducing barriers to access, integration of behavioral health services, providing continuity and coordination of services and collaboration with community partners. Culturally appropriate primary care services are provided and include: treatment of acute and chronic illnesses, behavioral health, family planning, prenatal and preventive services (well child, immunizations). Ancillary support services are operationally integrated and include pharmacy and lab. Enabling services include Medicaid eligibility screening, medical interpretation, transportation, case management and health education. East County Health Center serves a culturally diverse population, 80% whose incomes are below 100% of the Federal Poverty Level. Significant Program Changes

Last year this program was: #40023, East County Health Clinic

The FTE reductions in the program offer are from eliminating a planned 7th provider team. After unsuccessful attempts at recruiting providers, the vacant positions will be eliminated, and the clinic will serve up to capacity with existing provider teams.
