Executive Summary

The Budget Office guides the development of the County's Budget Process, prepares the annual budget and supports the Chair and the Board of County Commissioners with their budgeting decisions by helping align the County's annual spending plan with the priorities. It also serves as a liaison between departments, elected officials and the community in communicating policy direction and program priorities, coordinating strategic planning and providing technical expertise, training, program and management analysis.

Program Description

The Budget Office leads the countywide budget process, evaluates County policies and operations, and recommends redirection of policy and/or resources.

The Budget Office does the following:

- Prepares the annual budget, budget in brief and associated documents;
- Financial forecasting and budget revenue/expenditure projections;
- Ad hoc analysis for County Management and the Chair's Office; and
- Cost control analyses;
- Prepares the supplemental budget; and
- Maintains the legal budget throughout the course of the year.

Staff also assist departments in measuring performance of County programs; providing information and training on financial management, planning, budgets, and expenditure and revenue forecasting.

Budget staff serve on countywide task forces related to budget, finance and other fiscal matters; identify and resolve financial problems; and support County Labor Relations in collective bargaining research and detailed cost analysis.

The Budget Office is implementing Questica's Team Budget software for the FY 2015 budget cycle. The overall goal of the new budget system is to replace the current set of fragmented applications and tools that are used to manage the annual budgeting process with a single integrated application. The new budget system meets Central Budget Office requirements and will provide departments with both tools for developing annual budgets and the ability to extract budget data for ongoing analysis.
