Executive Summary

The Developmental Disabilities Monitoring and Crisis Services Unit has oversight of 24-hour comprehensive residential and employment programs, transportation, and support brokerage services, and provides crisis services to more than 2,300 adults and children with developmental disabilities who qualify for comprehensive services. These services range from short-term crisis support or crisis placement, to in-home supports and/or long-term residential placements. The unit is responsible for arranging crisis placements and managing facility support services, and monitoring services provided by contracted agencies and/or families. These supports are accessed through the crisis system when the client is at risk for civil commitment, out of home placement, and/or when health and safety are at risk.

Program Description

To access comprehensive and support services the individual must meet the criteria for crisis services. Supports can include: accessing a crisis bed, behavior consultation, nursing support, respite and other supports needed to stabilize the client; and long-term supports including residential placement, supported living, in-home supports and employment/alternatives to employment.

The unit also completes programmatic monitoring to ensure compliance with county contracts, Oregon Administrative Rules and Oregon Statutes. They participate in on-site licensing reviews conducted by the state Office of Developmental Disabilities Services and provide contractors with technical assistance to support them in meeting requirements. The unit monitors health and safety issues that are programmatic as opposed to client-specific concerns. They work with the Abuse Investigations team to ensure required actions are completed and ongoing issues are addressed.
